

Artemiy T

DevOps Engineer

LANGUAGES

English - B1

WHO AM I?

SKILLS

CI/CD Docker Git Linux PostgreSQL SQL MySQL Kubernetes Bash Jenkins Gitlab
MongoDB PowerShell API Active Directory IIS Windows Server Microsoft Azure
Azure Devops Agile Project Management Scrum IAC yandex cloud Ansible AWS Terraform
Github Puppet Grafana

EDUCATION

2017 — 2021

Volga State University

Information Systems and Programming

EXPERIENCE

2022 — 2023

I1

Tasks performed: - Setting up CI/CD in GitLab CI. - Developing and managing Yandex Cloud infrastructure. - Managing roles and access on the project. - Developing and managing Kubernetes infrastructure. - Managing repositories in GitLab. - Organizing team calls. - Planning and distributing tasks. - Managing YouTrack. - Conducting interviews with potential employees. - Assisting and organizing the work of the team.

Gitlab youtrack yandex cloud Kubernetes

2022 — 2022

Middle DevOps engineer

Gamedev studio

Tasks performed: - Setting up CI/CD in Azure DevOps, GitHub Actions, and Unity Cloud. - Managing and improving infrastructure on Azure. - Managing roles and access on the project. - Writing integrations using APIs. - Managing repositories in GitHub and Azure DevOps.

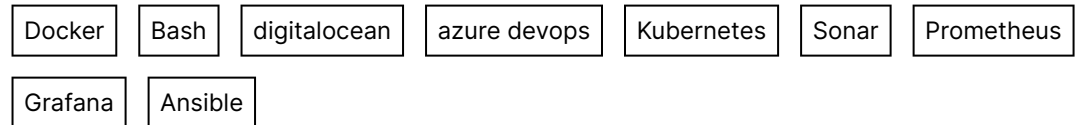

Github unity cloud API Azure

2022 — 2022

Middle DevOps engineer

Dating system

Tasks performed: - Developing and managing Azure DevOps CI/CD pipelines. - Developing and managing Digital Ocean infrastructure. - Configuring SonarCloud. - Configuring Monitoring (Prometheus + Grafana). - Developing and managing Kubernetes infrastructure. - Managing GitLab repositories. - Developing and managing Docker infrastructure. - Managing Ubuntu server. - Developing Ansible configurations.

2022 — 2022

Middle DevOps engineer

Sport tracking system

Tasks performed: - Developing Azure Devops CI/CD pipelines (YAML and UI) 2)Develop Azure infrastructure (UI and terraform). - Managing Azure DevOps Repos. - Configuring SonarCloud.

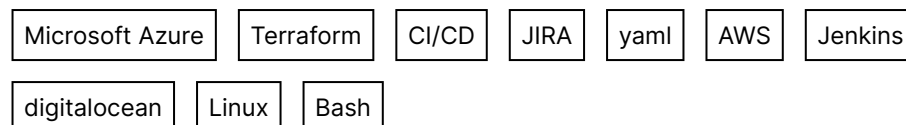

2021 — 2022

Middle DevOps engineer

Wiscercat

Tasks performed: - Developing and managing Azure DevOps CI/CD pipelines. - Managing Azure infrastructure. - Integrating Jira with Azure DevOps. - Configuring Azure applications. - Managing Azure Kubernetes infrastructure. - Managing Jenkins CI/CD for mobile platforms. - Managing AWS infrastructure. - Managing DigitalOcean infrastructure. - Developing and managing CI/CD on GitLab CI. - Linux administration.

2021 — 2022

Middle DevOps engineer

EPAM Systems Inc

Tasks performed: - Developing Azure DevOps CI/CD pipelines. - Managing Azure infrastructure. - Integrating Jira with Azure DevOps. - Configuring Azure applications.

Microsoft Azure
